COMPANY HISTORY

CRESTPART NIGERIA LIMITED was founded by a group of professionals in the Engineering Services and Spares Distribution Industry in 2016.

The formation of the Company resulted from the realization that the Engineering MRO/OEM spares industry lacked effective representation in Nigeria.

It was on this basis that our founding Directors saw the need to establish a bridge-builder between the various OEMs and end users, with application of knowledge, experience and skills based on a well-defined understanding of the necessities of clients.

In these years, our understanding of Engineering Applications and Systems (EAS) has distinguished us as a reliable one-stop shop for MRO/OEM spare parts supply and distribution.

Mission & Vision Statement

MISSION STATEMENT

To provide qualitative and quantitative industrial solutions focused on customer's satisfaction for business continuity and sustainability.

VISION STATEMENT

To be a global leader by providing sustainable productivity solutions to stakeholders across our business operations.

INDUSTRIES WE SERVICE

- **Food & Beverage**

- Climatic test chambers

Providing solutions for over million enterprising partners all over the world

WE HAVE BROAD EXPERIENCE IN ALL PROCESSES & APPLICATIONS:

- Meat & Poultry industry
- Dairy industry
- Ice Rinks
- Fish Industry
- Bakeries
- Refrigeration Systems for Oil & Gas
- Beverage Industry
- Pharmaceutical industry

TYPICAL PROCESSES

- ▲ Freezing
- ▲ Carcass cooling
- ▲ Cooling
- ▲ Air Chilling
- ▲ Shock freezing
- ▲ Ham and sausage drying

We cover all temperature ranges with reliable, well-proven solutions with low operating costs. Thousands of Johnson Controls cold store applications operate successfully all over the globe.

The Customer needs a partners who designs, manufactures, tests, installs and starts-up unique tailor-made solutions based on long comprehensive experience within all industries and applications.
